**A NEW WORLD OF
FLIGHT PLANNING SERVICE FOR
BUSINESS AVIATION
TAKES OFF**

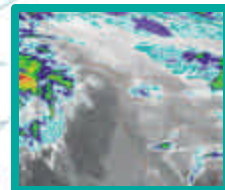

Introducing Skyplan Services Corporate Flight Services

Skyplan was incorporated 20 years ago and has grown into one of the world's largest suppliers of flight planning services to the airline community. Over 400,000 times a year, we file flight plans to every corner of the globe. The same service that has made us the flight planning service of choice for airlines around the world is now available to the corporate flight department.

handle corporate aircraft as competently as we serve our over 200 airline clients.

Through our fuel division, Skyplan is able to provide jet fuel worldwide to both our airline and corporate customers. Through our network of suppliers we are able to offer very competitive pricing.

Flight plans, aviation fuel, flight following, weather briefings, ground handling, crew accommodations and catering will be handled with speed and precision. Our 24 hour operations centre in Calgary is staffed by certified dispatchers that give us the expertise to

... to exceed our customers' expectations in the provision of top quality aviation products and services, and to always strive to be the best in what we do and what we offer our customers.
